Profile Summary

Motivated and detail-oriented B.Tech student with strong foundations in **SQL, Python, and Database Systems**. Hands-on experience through **internships and hackathons**. Passionate about **problem-solving, data management, and building impactful solutions**.

Education

BVCITS Engineering College	(2024 – 2028)
Bachelor of Technology	
Sri Prakash Junior College	(2022 – 2024)
Narayana English Medium School	(2021 – 2022)

Technical Skills

- MySQL
- Python
- HTML
- DBMS
- Data Analysis Basics
- Problem Solving

Internship Experience

Elevate Labs	(MySQL Intern — 45 Days)
• Designed and executed SQL queries (CRUD operations)	
• Worked with relational databases and data handling	
• Applied query optimization techniques to improve performance	
TalentShine	(Python Development Intern)
• Developed Python-based applications and scripts	
• Improved logical thinking and coding efficiency	
• Collaborated on real-world mini projects	

Projects

Sports Tournament Database System	
<i>GitHub:</i> View Project	
• Designed and implemented a relational database system	
• Created tables, views, and optimized queries	
• Used CTEs and aggregation functions	
• Generated reports for rankings and match analysis	
Kisan Call Centre Query Assistant	(Hacksagon 2026)
• Built a solution for farmers' query assistance	
• Focused on user-friendly design and real-world problems	
• Strengthened teamwork and innovation skills	
Plant Disease Detection Android Application	
<i>GitHub:</i> View Project	
• Developed concept using image analysis for disease detection	
• Focused on agriculture productivity improvement	
• Participated in SmartBridge Hackathon	

Achievements

- Participated in **Hacksagon 2026 and SmartBridge Hackathon**
- Completed internships in **Python Development and MySQL**
